## 2021 1<sup>st</sup> Exit Test Results

At LICOSESS, Exit Tests often play an important role in what determining teacher-students study and learn to prepare for practice. These tests are designed “to provide our academic departments with a dependable mechanism for identifying teacher-students who have met the five critical areas in Liberia’s Professional Standard For Teacher Education including, Knowledge of Content, Teaching Skills, Classroom Management, Student Assessment and Evaluation, and Professional Ethics. The test specifications make explicit at least part of what the teaching profession considers worth knowing and how it should be known and demonstrated. The below is the initial result of the 2021 Exit Test which was taken on December 4, 2021. The Follow-up testing will be conducted on January 8, 2022. Congratulations to those who passed successfully.
